

Wildflower

Dave Barnes

Wildflower, can't you see it's time for you to settle down?
Blame it on the wind you're in some desert town,
it feels so far away.
Wildflower, you finally found the all-alone
you dreamed about.
Maybe there's no one there that can hurt you now
but it's quite a price to pay.
The hardest thing I ever did
was watch you go.
Now you're underneath some other sky so blue.
Can't you see,
I'm still in love with you?
Wildflower, I wish that I could be the one
to change your mind.
That you can pick up all the pieces that you left behind
when you come back to stay someday.
The hardest thing I ever did
was watch you go.
Now you're underneath some other sky so blue.
Why can't you see
I'm still in love with you?
There's a risk in loving you
I'd take again and again and again it's true.
Baby I wait for you.
Wildflower,
The hardest thing I ever did
was watch you go.
Now you're underneath some other sky so blue.
Maybe all I wanted was to hold you close
Like you've never let somebody do.
After all this time
I'm still in love with you
Wildflower, I'm still in love
