Come on baby,
Come on girl,
Come on baby,
Come on girl,I love you baby,
I love you now,
I love you baby,
I love you now,Look at us we're beautiful,
All the people push and pull but,
Let's just go out and ride,
Talk about the things we've tried
Look at us we're beautiful,
All the people push and pull but,
They'll never get inside,
We got too much to hide
Come on baby,
Come on girl,
Come on baby,
Come on girl,I love you baby,
I love you now,
I love you baby,
I love you now,Look at us we're beautiful,
All the people push and pull but,
