

# Should've When You Could've

## Skillet

I'm done, wonder where you've been  
All night long when you're out with your friends  
All you say that the matter's over  
But now that chapter's over I'm done trusting you it's ended  
Even after I catch you red handed  
You could've been my only one  
But now your chance is gone You should've when you could've  
You're gonna miss my love, girl  
You should, it would've been so good You should've when I would've  
Now I know I've had enough  
Better luck next time, girl  
You should, it would've been so good  
I'm done chasing you all over  
May as well be chasing after thunder  
Play hard to get if it makes you happy  
For a change now you can start chasing me Don't cry 'cause I ain't, you're sure thing  
It ain't my fault you don't know a good thing  
You could've been my only one  
But now your chance is gone You should've when you could've  
You're gonna miss my love, girl  
You should, it would've been so good You should've when I would've  
Now I know I've had enough  
Better luck next time, girl  
You should, it would've been so good  
Don't you understand?  
Don't wanna be your backup plan  
Now I won't be here to clean up when it hits the fan  
You tried to kick me on your leash  
It's time you started chasing me I'm done acting like I won't be  
Sitting here still wishing you wanted me  
Don't say that I never told you  
Take some advice from somebody who knows You should've when you could've  
You're gonna miss my love, girl  
You should, it would've been so good  
You should've when I would've  
Now I know I've had enough  
Better luck next time, girl  
You should, it would've been so good  
You should've when you could've  
You're gonna miss my love, girl  
You should, it would've been so good
