

# She's Mine

## Cameo

Look

Excuse me, sir, but I do believe  
The lady arrived with me  
Well it's her style smile charm and poise  
It's the past she attracts noise from the boys  
They try to get in touch to rap those lines  
But she's too smart to let them beat my time  
And I love it when she touches  
Makes cold chills run down my spine

Mine

I don't know how she does it  
But she gets her man everytime  
Now she's not responsible  
When you pass her  
And she won't be around  
When your money runs out  
Cuz a love like hers has a mean punch  
She eats guys like you everyday for lunch  
Now the girl is sweet

She's not mean

But it's obvious though  
That I'm handlin' fish  
And if you wanna know  
What this is all about  
I'm tellin' you fellas there is no doubt  
I'm tryin' to make you realize she's

Mine

Don't come onto her with those goo goo eyes

Mine

As bittersweet as bittersweet can be

Mine

There's only one qualified and that's me  
Now let me explain she's just like me  
A professional person with a master's degree  
From the school of hard knot fraternity  
Alpha phi beta sigma  
C A M E O  
The graduatin' class of Cameo

Talk to all my friends if I may say so

Let's all get up and go go you know  
Can't you see see see my ID?  
Boys boys Well I came up with  
one reason to rap the guys

And to spread the word to my fellow alumni

Let it be known that we're a positive group

With a taste for adventure an eye to you

So I hope I made it plain for you to see

My distinguished colleagues and their manters' degree

In the sovereign field of sociology  
On the background of America we seem to see Mine  
To make you realize she's  
Mine  
Mine  
Can't take the girl cuz she's  
Mine  
There's only one qualified and that's me  
Hey hey Mine  
Don't come onto her with those goo goo eyes  
Mine
