

# Barbed Wire Love

## Stiff Little Fingers

I met you in No Man's Land  
Across the wire we were holding hands  
Hearts a-bubble in the rubble  
It was love at bomb site All you give me is barbed wire love  
All caught up in barbed wire love  
Tangled up in barbed wire love  
Throw my leg over barbed wire love  
Barbed wire love snags my jeans  
Barbed wire love...  
When I fell it was awful nice  
Caught when not suspecting vice  
The night was rife with wasteland life  
You set my arm alight All you give me is barbed wire love  
All caught up in barbed wire love  
Tangled up in barbed wire love  
Throw my leg over barbed wire love  
Barbed wire love snags my jeans  
Barbed wire love...Blasted by your booby traps  
I felt the blow in both knee-caps  
Your eyes did shine  
Your lips were fine  
And the device in your pants was out of site  
All you give me is barbed wire love  
All caught up in barbed wire love  
Tangled up in barbed wire love  
Throw my leg over barbed wire love  
Barbed wire love snags my jeans  
Barbed wire love...
