

# Go In, Go Hard (feat. Wretch 32)

## Angel

When I go in, when I go hard  
There's nobody else on my level  
When I go near, when I go far  
It's over, over Never made what's easy hard fix  
Fool for my gift, I'ma read each card  
The list is in my jeans, like my beat beat dot  
If the faith died, give it that CPR Always remember those days  
When I couldn't go play, I was singing all day  
No pain, they say there's no gain  
Wasn't given on no play I had to work hard, I was frustrated  
I made mistakes and they hated  
So I prayed then, I know it's gonna come my way  
I'll be singing to the world some day  
Ain't give up the fight  
I know wrong from right, I'ma keep it tight  
Through the darkness I could find  
A light that's shining bright 'Cause I know when I go in, when I go hard  
There's nobody else on my level  
When I go near, when I go far  
It's over, over 'Cause I came to shut it down  
'Til there ain't no trace of doubt  
When I go in, when I go hard  
It's over, over Check, since I've been going in, I'm scared of coming out  
I hit 'em with a hit, the blood's rushing out  
Before I become the ish, still it's unannounced  
So when I top the charts, I ain't coming down  
My drive ain't driven by numbers  
I'm from the underground  
Seen the best deprived buskers  
They ain't got a piece of the pie So we should think about the cake  
Next time we buy a custard  
Hunger in my belly, could've turned my knees jelly  
Now my vision gets channeled through the telly Ain't give up the fight  
I know wrong from right, I'ma keep it tight  
Where the darkness I could find  
A light was shining bright 'Cause I know when I go in, when I go hard  
There's nobody else on my level  
When I go near, when I go far  
It's over, over  
(It's over) 'Cause I came to shut it down  
'Til there ain't no trace of doubt  
When I go in, when I go hard

It's over, over They've been telling me what they want me to be  
But I know I made a bigger promise to me  
And I put it away so I'ma get one of these days yeah  
One day I'll know When I go in, when I go hard  
There's nobody else on my level  
When I go near, when I go far  
It's over, over  
(It's over)'Cause I came to shut it down  
'Til there ain't no trace of doubt  
When I go in, when I go hard  
It's over, over When I go in, when I go hard  
There's nobody else on my level  
When I go near, when I go far  
It's over, over 'Cause I came to shut it down  
'Til there ain't no trace of doubt  
When I go in, when I go hard  
It's over, over
