

# Came Here For Love (Mix Version)

Sigala & Ella Eyre

I'm no longer broken Hearted  
So glad I came here tonight  
And I see you got what I wanted  
Baby, you got what I like I can see that you watching me  
Come over, talk to me  
Need you to give me a sign  
You got that something sweet  
That won't come easily  
It's what I need tonight I came here for love  
For someone to hold me down  
I won't give it up, no  
I want you to reach out  
I came here for love  
I came here for love  
I came here for love  
I want you to reach out I'm so ready to get on it  
You follow me, you'll be fine  
And I'm in too deep  
Have I fallen, without anyone inside I can see that you watching me  
Come over, talk to me  
Need you to give me a sign  
You got that something sweet  
That won't come easily  
It's what I need tonight I came here for love  
For someone to hold me down  
I won't give it up, no  
I want you to reach out  
I came here for love  
I came here for love  
I want you to reach out This is what we came here for  
We came here for love  
I won't give, I won't give it up  
This is what we came here for  
We came here for love  
I know this, I know it's enough  
This is what we came here for  
We came here for love  
I won't give, I won't give it up  
This is what we came here for  
We came here for love  
I want you to reach out I came here for love  
For someone to hold me down

I won't give it up, no  
I want you to reach out I came here for love  
I came here for love  
I want you to reach out
