

Girls In Black

Airbourne

In the smoke and the red
Workin' the late night sweat
You're the one to go to
When I wanna forget
Like hangin' off the moon
I don't wanna come down
Yeah, you get me so high
It's hell on the ground Just one little glass
Makes the night go fast
You can have what you want
If you pay the girl cash
I said girls
Girls in black
I said girls
Girls in black You're the hot bright neon
In the cold dark night
When I'm feelin' down
You make me feel so right
Yeah your bait comes free
But your hooks cut deep
You make the bad boys smile
And the good boys weep Yeah just one little glass
Makes the night go fast
You can have what you want
If you pay the girl cash
I said girls
Girls in black
I said girls
Girls in black
I said girls
Girls in black
I said girls
Girls in black Yeah just one little glass
Makes the night go fast
You can have what you want
If you pay the girl cash I said girls
Girls in black
I said girls
Girls in black I said girls
Girls in black
I said girls
Girls in black oh yeah
