Girls In Black

Airbourne

In the smoke and the red Workin' the late night sweat You're the one to go to When I wanna forget Like hangin' off the moon I don't wanna come down Yeah, you get me so high It's hell on the groundJust one little glass Makes the night go fast You can have what you want If you pay the girl cash I said girls Girls in black I said girls Girls in blackYou're the hot bright neon In the cold dark night When I'm feelin' down You make me feel so right Yeah your bait comes free But your hooks cut deep You make the bad boys smile And the good boys weepYeah just one little glass Makes the night go fast You can have what you want If you pay the girl cash I said girls Girls in black I said girls Girls in black I said girls Girls in black I said girls Girls in blackYeah just one little glass Makes the night go fast You can have what you want If you pay the girl cashI said girls Girls in black I said girls Girls in blackI said girls Girls in black I said girls Girls in black oh yeah
