

# Real Sisters

## Future

Ain't bring you home babe with a fat boa  
With you  
I try to bust a couple nuts with you  
First night she says they were sisters  
I won't give a fuck if they were twins sisters  
I just try to get 'em at the banz zone  
She know I fuck with all her friends  
First night she says they were sister  
I won't give a fuck if they were twins sister  
Found one day we're cousin but we've been fuckin'  
She told me that she love it and now her friends happen  
Party nigga mag, why they mean muggin'  
Lookin' all hard like you mean somethin'  
I see trigger, you will start, ain't see nothin'  
I feel ready to throw the task and get the fans jumpin'  
I get the bitches, nigga you know that's a part from me  
I don't know nuthin' bout the way these others be,  
All the nigga talk 'bout some shit that they never did  
My other bitch she just pull up with some other bitch  
Got my other bitch chillin' with my other bitch  
Nigga last night don't remember what I did  
Got it on the phone, got it right on my phone  
Told my stripper burn, baby let the fire burn  
I like the stripper girl cuz she never come alone  
She bring her friends and the one I spend my money on  
I kiss a pussy girl, why you act so funny  
Comin' with you baby, I don't want to come alone  
I'm fuckin' with you sticky, icky in your honey cone  
She told me that they get what you runnin' for  
Ain't
