

Moment (feat. Future Cities & Ness)

Joe Maynor

[Chorus: Future Cities]
She done got ahold of me
She gripping staying close to me
She don't wanna let go, wanna let go of this moment
We listening to Jodeci
Pour the champagne over ice, ice, ice
She gripping staying close to me
Cause she don't wanna let go, wanna let go of this moment[Verse 1: Joe Maynor]
(Yeah, yeah, look)
You got ahold of my time
I'm looking at you from behind
Girl that ass in its prime
I change forms when it's time
Whatever you need
I pop me a C
Have you hitting C's
I'm running through bands
Like I'm OhGeesy
I'm touching my fans
And picking up fees
(yeah)
Fuck with ya boy hit my line when you come through
I ain't into that fake shit so leave your phone at the door too
And I ain't into that capping shit so all you gotta do is stay true
And imma make sure that you payed up have ya hair done and the rent due
(Yeah)
Talk to me like I'm Jodeci
Tap in get ahold of me
Pussy tight like it's supposed to be
Give me top while I'm rolling weed
Heart froze that's the cold in me
Go ahead and pour up a 4 for me
Have the time moving slow for me
How the fuck you get ahold of me?
[Chorus: Future Cities]
She done got ahold of me
She gripping staying close to me
She don't wanna let go, wanna let go of this moment
We listening to Jodeci
Pour the champagne over ice, ice, ice
She gripping staying close to me
Cause she don't wanna let go, wanna let go of this moment[Verse 2: Ness Julius]

Purification
Clear communication
Constant meditation
And frequent medication
I've been waiting for you
Sleep deprivation
(I've been waiting for you)
Tell me all your secrets
I'll make reservations
You say the word
(Say the word)
I'm on the way
(I'm on the way)
Take your body, mind, and soul to another place
(To another place yeah yeah)
To another dimension
A divine intervention
(Can we)
Intertwine
Just unwind
Free your mind
Take our time
Imma hold you like a baby. I'm
Imma be your savior
Want you now not later
This moment you gon' savor oh yeah
[Bridge: Future Cities]
I'm all you need
I'll read your mind
Don't front on me
Don't lose your mind
It's too much, it's too much, it's too much. (yeah)
I'm all you need
I'll read your mind
Don't front on me
Don't lose your mind
It's too much, it's too much, it's too much [Chorus: Future Cities]
She done got ahold of me
(Me)
She gripping staying close to me
(To me)
She don't wanna let go wanna let go of this moment
