

Out Of Your League (feat. Steve Lacy)

Blood Orange

Follow me under and never feel way too unique
This ain't a trap she'll get your body when you're starting to feel weak
Maybe a thing that you wanted is all that you need
Don't it fill no expectation better than the thoughts that you conceive? Promises, promises,
promises that's what you know
Changing gears out of your league
Promises, promises, promises left that you know
Changing gears out of your league Follow me under and never feel way too unique
This ain't a trap she'll get your body when you're starting to feel weak
Maybe a thing that you wanted is all that you need
Don't it fill no expectation better than the thoughts that you conceive?
