

# Bones

## Michael Kiwanuka

Honey, I've been thinkin' 'bout you  
All that you do  
Don't you finger me too  
Lady, where you've been for so long?  
I don't need you no more  
Had to write you this song Well I long to be alone with you  
And if I couldn't have a door knob  
What I would do?  
I guess I would leave (I would leave)  
This world alone (This world alone)  
Cuz without you I'm just bones (Booones)  
Well I dream of you so much  
Love you so much  
Thoughts at large  
Well I speak only of you  
So what else is new?  
What am I to do? Well I long to be alone with you  
And if I couldn't have a door knob  
What I would do?  
I guess I would leave (I would leave)  
This world alone (This world alone)  
Cuz without you I'm just bones (Booones) Days go more and more I see  
That your love is all my soul needs  
That you're gone and now I'm fallin'  
Fallin' to my knees  
Well I long to be alone with you  
And if I couldn't have a door knob  
What I would do?  
Well I long to be alone with you  
And if I couldn't have a door knob  
What I would do?  
I guess I would leave (I would leave)  
This world alone (This world alone)  
Cuz without you I'm just bones (Booones)  
I guess I would leave (I would leave)  
This world alone (This world alone)  
Cuz without you I'm just bones (Booones)  
I guess I would leave (I would leave)  
This world alone (This world alone)  
Cuz without you I'm just bones
