

# Double Vision (feat. Tyga)

## Prince Royce

Girl 1

I swear I told myself that she's the one

Girl 2

I hate myself because I love her, too

Girl 1

She don't give me drama

Type that you bring home to mama

Girl 2

I try breaking up but I can't get enough

Got both of 'em on my mind

I don't know where to draw the line

Never been in this place before

But I gotta let one of them go Somebody help me

Somebody help me now

Cause I'm in love with these two women

And my heart ain't tryna listen

Somebody help me

Somebody help me now

Cause I just can't keep up with 'em

But I gotta make a decision I've got double vision

I've got double vision

I've got double vision

I've got double vision

Why you teasin' with your pants on?

Go on ahead, take 'em off

This a dance song

Play the ringtone, pour some alcohol

I don't wanna judge you, babe

But I can see your thong

On, off, kissing all your tickle spots

Faded, having double vision

Standing under mistletoe

King, gold chains and watch your cameltoe

She gon' say "You can't touch"

Like Hammer though

I'm on to the crack of dawn

Lifting up your skirt, I'm a flirt

Getting mega dome

Call a friend through, use my iPhone

Tell her come over right now

She never got home Got both of 'em on my mind

I don't know where to draw the line

Never been in this place before  
But I gotta let one of them go  
Somebody help me  
Somebody help me now  
Cause I'm in love with these two women  
And my heart ain't tryna listen  
Somebody help me  
Somebody help me now  
Cause I just can't keep up with 'em  
But I gotta make a decision  
I've got double vision  
I've got double vision  
I've got double vision  
Somebody help me out  
I'm love with these women  
Somebody help me out  
I'm love with these women  
Somebody help me out  
I can't make a decision  
I've got double vision  
I've got double vision  
Somebody help me  
Somebody help me now  
Cause I'm in love with these two women  
And my heart ain't tryna listen  
Somebody help me  
Somebody help me now  
Cause I just can't keep up with 'em  
But I gotta make a decision  
I've got double vision  
I've got double vision  
I've got double vision
