Feel Good (feat. Daya)

Illenium & Gryffin

Yeah, I doubt, I doubt myself
And I'm too proud to ask for help
When you see me beside myself
I don't have to explain it, baby
Yeah, I'm over picking fights
And trying to mend it with the high
Don't wanna know that I'm not right

I know that I've been lately, lately Yeah, sometimes I need someone to pick me up Overdose my mind with the things I love

You can take me there

When my heart beats, when my heart beats freeTake my hand in the middle of a crisis Pull me close, show me, baby, where the light is

I was scared of a heart I couldn't silence

But you make me, you make me feel good, I like it

Take my hand in the middle of a crisis

Pull me close, show me, baby, where the light is

I was scared of a heart I couldn't silence

But you make me, you make me feel good, I like itBut you make me, you make me feel goodYeah, I get over, overwhelmed

When all these problems burn like hell

Maybe I just need a friend

Who never calls me crazy, crazy You pull me off the front line before I run

Keep me cool, but not get overdone

You can take me there

When my heart speaks, when my heart speaks freeTake my hand in the middle of a crisis Pull me close, show me, baby, where the light is

I was scared of a heart I couldn't silence

But you make me, you make me feel good, I like it

Take my hand in the middle of a crisis

Pull me close, show me, baby, where the light is

I was scared of a heart I couldn't silence

But you make me, you make me feel good, I like itYou make me, you make me feel good, I like it (I like it)

You make me, you make me feel goodTaking the weights off (ooh)

To help with the pressure

And I was here stressing (oh)

Thinking it mattered

Been with you for hours, but it feels like seconds

It's only moments and I'm in heaven

It's only moments and I'm in heaven, ohYou make me feel good

You make me feel good

You make me, you make me feel good, I like itTake my hand in the middle of a crisis

Pull me close, show me, baby, where the light is
I was scared of a heart I couldn't silence
But you make me, you make me feel good, I like itNa na na na na, oh
Na na na na
