

# Envy

## Breton

It's no love if you envy for you  
It's no love if you ain't for it  
It's no love if pay for it  
Then takes someIt's no love if you envy for you  
It's no love if you ain't for it  
It's not love if you never had anyone else  
Tell me what you talk then I'll be part of it  
You quit the cause and I can see that you start with  
I lost the cause to say right how they are  
Cuz you're a tourist, just nothing wrong without  
What you never couldn't notice  
It's high back, it's how they will stack against you  
You're only as long, you're only here as long, you're only here as long s they run toCuz you're a  
tourist, just nothing wrong without  
What you never couldn't notice  
It's high back, it's how they will stack against you  
You're only as long, you're only here as long, you're only here as long s they run toI tell you all  
that he 'down to ém '  
I tell you all my feeling tonight  
Try how you are and zip it all of refuse to die or die alone  
Cuz you're a tourist, just nothing wrong without  
What you never couldn't notice  
It's high back, it's how they will stack against you  
You're only as long, you're only here as long, you're only here as long s they run toWhat you  
never couldn't notice  
It's high back, it's how they will stack against you  
You're only as long, you're only here as long, you're only here as long s they run to
