

# Put Me On (feat. Everlast & Moka Only)

## Swollen Members

YeahCool as a summer breeze  
Drifting on memory  
She got me on my knee  
But darlin' I'm begging, please  
And if there's a winter storm  
And I'm there to keep you warm  
In whatever shape or form  
Baby girl gotta put me on  
It's been ten years runnin' and you still look stunnin'  
One in a million, Diamond, you're beautiful with brilliance  
Still it's not enough, even though we're inseparable  
We need to take a break but that don't mean that I'll let you go  
Tears become streams, we got the same dreams  
What's with all the competition, Ma? We on the same team  
Angel, sometimes I don't show it on the surface  
But, your face is unreplacable, it's perfect, you're worth it  
I'm not always there emotionally, even though you're close to me  
I got work to do, that's how its supposed to be  
And I ain't into choppin' it up  
I'll switch your top but don't trip, got you a brand new whip  
And took you shoppin', it's cool  
Just do your thing while I work on this music shit  
If we don't end up back together, though Imma lose it, kid  
I gotta spit viscously and throw bolts of thunder  
For now be a stranger, but don't change your number.  
Cool as a summer breeze  
Drifting on memory  
She got me on my knee  
But darlin' I'm begging, please  
And if there's a winter storm  
And I'm there to keep you warm  
In whatever shape or form  
Baby girl gotta put me onHeyShe's a hot one, ain't no one illa  
Butter pecan and French vanilla  
Shit, I'm speakin'- it's true word for realla'  
Baby girl be like a stone killa'  
She call me Pop and sometimes it's daddy  
She lookin' proper, never look ratty  
Her waste is small, her booty's real fatty  
Might let her hold the keys to my caddyOf all the beautiful women that I've met in this world  
Why's it such a challenge trying to find the right girl?  
I've dated actresses, models, strippers, intellectuals

Four months max, like Maxim, it's all sexual.  
Incredible, I've been to more than twenty countries  
Got dirty, ugly with hunnies that were lovely.  
But trust me, I'm a Scorpio  
That's how it has to be  
Till I'm chillin' with children and a house  
I'm fast and free Lookin' back through all the Springs that passed  
The Summer time fun with no strings attached  
I'll never find love and these flings don't last  
Will there ever be a queen for this king to match?  
Till then, I'll be...Cool as a summer breeze  
Drifting on memory  
She got me on my knee  
But darlin' I'm begging, please  
And if there's a winter storm  
And I'm there to keep you warm  
In whatever shape or form  
Baby girl gotta put me on Baby girl put me on...
