

A Storm On A Summers Day (feat. GAIDAA)

Full Crate

It's been 5 years i still love everything about you
Put all our trust in us there's no more fear
Although i haven't really been the perfect partner
Your mind, your heart and honesty is how i breathe And when i follow you it feels like home
And in these ways i'm humble
Can we pack our bags and run away
To the mountain high
Just you and me... Hit me like a storm on a summers day
Never had a love that made me feel this way
Whenever you're away
And i can't seem to reach you
I think of your smile and then it's like you're here
You taught me how to love myself and now i'm fearless...
Your heart and my heart will beat the same rhythm... And when i follow you it feels like home
And in these ways i'm humble
Can we pack our bags and run away
To the mountain high
Just you and me. Hit me like a storm on a summers day
(Hit me like a song...)
Never had a love that made me feel this way
(Never had a love that made me feel this way)
Hit me like a storm on a summers day
(And it feels like yesterday)
Never had a love that made me feel this way
Can you feel it... The way i see it...
You know i mean it.
Can you feel it... The way i see it...
You know i mean it.
Can you feel it... The way i see it...
You know i mean it.
Can you feel it... The way i see it...
You know i mean it. Hit me like A Storm On A Summers Day
Never had a love that made me feel this way
Just like yesterday...
