

Temporary (Acoustic)

[Ella Vos](#)

So I've lost my way looking for a sign
I should slip away, mystery of time
And now the quiet hours stay a little longer
Till the darker days come and go again
And they say I'll be fine again
Please just tell me it's only temporary
When I'm here feeling ordinary
No, don't try and hold me
If you're gonna hold me back
Just tell me it's only temporary
So I've changed my mind, see it differently
On the other side they're not listening to me
'Cause when the ropes all break
Nothing's gonna catch
With my hands untied is anything the same?
Just tell me it's only temporary
When I'm here feeling ordinary
No, don't try and hold me
If you're gonna hold me back
Just tell me it's only temporary
All the water is running
All the water is running
All the water is running out
Do you see that it's coming?
Do you see that it's coming?
Do you see that it's coming now?
Just tell me it's only temporary
When I'm here feeling ordinary
No, don't try and hold me
If you're gonna hold me back
Just tell me it's only temporary
