The Very Last Time

Bullet for My Valentine

[Verse 1]

Your eyes don't lie

A pair of daggers cutting through my mind Your stare it rips a hole into my life Am I supposed to leave this all behind?

It's on my skin

Your scent is poison when I breathe you in It's there with every single breath I take If this is it then don't resuscitate[Chorus]

I've gone and put myself through this for the very last time
I'm not gonna punish myself when I know that the fault is not mine
It's on my skin

Your scent is poison when I breathe you in I've gone and put myself through this for the very last time (For the very last time)

[Verse 2]

Don't you speak

You think I'm hurting but I'm not that weak I guarantee I won't be losing sleep

'Cause you're the one that made this end complete[Chorus]
I've gone and put myself through this for the very last time

I'm not gonna punish myself when I know that the fault is not mine

Don't you speak

You think I'm hurting but I'm not that weak I've gone and put myself through this for the very last time (For the very last time)[Bridge]

Breathing

I'm still breathing

I'm still breathing

I'm still breathing

[Chorus]

I've gone and put myself through this for the very last time I'm not gonna punish myself when I know that the fault is not mine Don't you speak

You think I'm hurting but I'm not that weak
I've gone and put myself through this for the very last time[Outro]
I've gone and put myself through this for the very last time
