

# u just can't be replaced (feat. rosabeales)

## gnash

walk with me  
in the dark  
hold my hand  
through the park  
Don't be scared  
it'll be alright  
Time to bed,  
turn out the light  
something about you  
makes me wanna try ideas  
I tried to fill the space  
Forget for my mistakes  
You just can't be replaced  
You just can't be replaced  
I can't forget your face  
Come home, don't fade away  
You just can't be replaced  
You just can't be replaced  
You just can't be replaced  
You just can't be replaced  
You just can't be replaced  
You just can't be replaced  
You just can't be replaced  
You just can't be replaced  
You just can't be replaced  
You just can't be replaced  
I tried some other things I know you did too  
I've seen all the crazy things you've been through  
You know for me it's always only been you  
You'll always be all I ever need  
It's simple  
See, you and me made a girl together not just go together  
Share a soul together, build a home together  
Touch our toes together, steal the show together  
There are so whatever,  
this is so forever,  
I'll hold you better  
See, you and me is enough  
cause you plus me it was love  
And you plus me equals us  
something about you  
makes me wanna try ideas

I tried to fill the space  
Forget for my mistakes  
You just can't be replaced  
You just can't be replaced  
I can't forget your face  
Come home, don't fade away  
You just can't be replaced  
You just can't be replaced  
You just can't be replaced  
You just can't be replaced  
You just can't be replaced  
You just can't be replaced  
You just can't be replaced  
You just can't be replaced  
You just can't be replaced  
You just can't be replaced  
You just can't be replaced  
I know you know better than to go  
So don't go  
I know you know better than to go  
So don't go  
You know what my dad always says?  
(What is yours?)  
That love is when you all your happiness  
and all your sadness and all your feelings are dependant on another person  
(Uh huh)  
So I guess I love you  
(Hehe)  
I tried to fill the space  
Forget for my mistakes  
You just can't be replaced  
You just can't be replaced  
I can't forget your face  
Come home, don't fade away  
You just can't be replaced  
You just can't be replaced  
You just can't be replaced  
You just can't be replaced  
You just can't be replaced  
You just can't be replaced  
You just can't be replaced  
You just can't be replaced  
You just can't be replaced  
You just can't be replaced  
You just can't be replaced
