

No Sleep (Intro)

Gucci Mane

Zaytoven

Ziggy

Mike Will

Mike WiLL Made It I can't even sleep I got so much to say

Fuck the feds, fuck the police, fuck the DEA

I can't even sleep I got so much to say

Ex-drug dealer, used to sell a brick a day

I can't even sleep I got so much to say

Recovering drug addict, I used to drink a pint a day

I can't even sleep I got so much to say

Recovering drug addict, I used to smoke a pound a day It's Gucci

No sleep

Burr-burrr-burrr

I'm outchea

Zwizzop

When the sun comes out it takes the rain away

But just like Noah it been rainin' the last 40 days

Takin' pain pills, tryna take the pain away

Sold my first 8-ball and bought me my first pair of J's

Momma cussing out these disrespectful ass J's

They knockin' on the door, know I'm just in the 7th grade

I'm mixin' codeine pills and molly in a lemonade

I feel like briscuit so damn high, might just die any day

For all you junkies that's addicted, please don't get offended

I'm a recovering drug addict and that's not my intention

That OG gas hit my mailbox like a magazine subscription

My doctor in the feds for writing bad prescriptions

I got so drunk I left Privé and I crashed a Bentley

I'm a mathematician

I'm too stoned to miss it

I got the best intentions but I made rash decisions

Throwin' cash at bitches

Spend like half a chicken

Before I started rapping I was worth half a ticket

Took your stash to get it

Or spent it so fast it's silly

I drop the top on my Rolls Royce, I ride past the prison

They hate with a passion, I guess that's the new fashion, is it

I can't even sleep I got so much to say

Fuck the feds, fuck the police, fuck the DEA

I can't even sleep I got so much to say

Ex-drug dealer, used to sell a brick to day

I can't even sleep I got so much to say
Recovering drug addict, I used to drink a pint a day
I can't even sleep I got so much to say
Recovering drug addict, I used to smoke a pound a day Fuck the feds, fuck the police, fuck the
DEA
I can't even sleep, I can't even sleep, I can't even sleep
