## What Is Life? (US Remix)

## **Black Uhuru**

What is life? Life is a spell What is life? No one can tell What is life? I try to see

What is life? It's looking bleakThey control the treasure of our birthright

And to survive we have to struggle and fight

The present confrontation of our mind

The flexibility of our visionWhat is life? I try to see

What is life? It's unity

What is life? I try to feel

What is life? It's really realEveryone say they are not excited

While our vineyard exploited

African woman hold me close to you

Help me to find don't get separated

What is life? Life is a treat

What is life? Nothing but cheat

What is life? Life is a test

What is life? Some man Jah blessThey control the pleasure of our birthright

And to survive we have to struggle and fight

The present confrontation of our mind

The flexibility of our visionWhat is life? I try to see

What is life? It's unity

What is life? Life is a dream

What is life? Life is a treatWhat is life? Life is a spell

What is life? No one can tell

What is life? I try to see

What is life? It's looking so bleak

What is life?

What is life?

What is life?

What is life?

What is life? Life is a treat
