

Latchkey Kids

Silversun Pickups

You keep dancing around
But you won't slow down
Please cousin (?), hear me out
You might get caught and if you want,
you can keep your fingers crossed
When outside, I'm free from all tethers
So get off the floor if you're under the weather
Come on
The latchkey kids have all come together
so unlock the door to make you feel better
Come on
We've been sneaking around
We do it lightly
No more myths, (?)
If you show up I'll know (?)
You risk still, a beating heart
When outside, I'm free from all tethers
So get off the floor if you're under the weather
What's in store is not so unusual
The latchkey kids have all come together
so unlock the door to make you feel better
It's not what you love that leads you on, running
Unlock the door, unlock the door and move on
You risk still, a beating heart
You can keep your fingers crossed
You keep dancing around
But you won't go back, back
When outside, I'm free from all tethers
So get off the floor if you're under the weather
What's in store is not so unusual
The latchkey kids have all come together
so unlock the door to make you feel better
It's not what you love that leads you on, running
Unlock the door and move on
