

# Take It On (feat. jACQ)

## Sick Individuals

Don't feel down, don't give up  
And you'll find your way  
Your way back to the sun  
Your way to everything  
We don't need to hide in the dark  
Ever, ever  
And you will shine if you never ever give up you can just  
Take it on  
And you will shine if you never ever give up you can just  
You can just take it on  
Take it on  
You can just take it on And you will shine if you never ever give up you can just  
Take it on Take it on, take it on  
You're not so far away  
Surrender to the sun  
To light up all your day  
We don't need (we don't need) to hide in the dark  
Ever (and you will shine), ever (and you will shine)  
And you will shine if you never ever give up you can just Take it on  
And you will shine if you never ever give up you can just Take it on  
Take it on  
You can just take it on  
(And you will shine)  
If you never ever give up you can just take it on  
If you never ever give up you can just take it on
