

# Adrenaline

## Thousand Foot Krutch

Touch the ceilin', act like how ya feelin'  
Gonna rock it 'till the wheels comes off  
And keep it reelin'  
No mistakin', people shakin'  
And soon we're gonna break it  
'Till the last one stands because they can't take it  
Touch the ceilin', act like how ya feelin'  
Gonna rock it 'till the wheels comes off  
And keep it reelin'  
No mistakin', people shakin'  
And soon we're gonna break it  
'Till the last one stands because they can't take it  
The rush is like nothing  
It gets your blood pumpin'  
When you flip the switch, it comes on  
It'll trail you, derail you  
Hammer and nail you  
To the point where you need to explode  
Let's put the pedal to the floor  
Here it comes, lets go  
Wind it up and let it go  
We're gonna watch it blow  
If you want it, then we got it  
We won't let up, 'till we get enough  
Adrenaline overload  
If you need it, then we bleed it  
Make some room, here comes the boom!  
Adrenaline overload  
And we won't let it off  
There's nothin' that can stop it  
Until we're in the coffin  
If you want it, we got it  
So let's get it started  
Adrenaline overload  
Touch the ceilin', act like how ya feelin'  
Gonna rock it 'till the wheels comes off  
And keep it reelin'  
No mistakin', people shakin'  
And soon we're gonna break it  
'Till the last one stands because they can't take it  
Touch the ceilin', act like how ya feelin'  
Gonna rock it 'till the wheels comes off  
And keep it reelin'  
No mistakin', people shakin'  
And soon we're gonna break it  
'Till the last one stands because they can't take it  
It will stop at nothin'  
To make you feel somethin'

'Till you feel like that's what you need  
But proceed with caution  
'Cause you can get lost  
And not everything is what it seems  
Let's put the pedal to the floor  
Here it comes, let's go  
Wind it up and let it go  
We're gonna watch it blow  
If you want it, then we got it  
We won't let up, 'till we get enough  
Adrenaline overload  
If you need it, then we bleed it  
Make some room, here comes the boom!  
Adrenaline overload  
And we won't let it off  
There's nothin' that can stop it  
Until we're in the coffin  
If you want it, we got it  
So let's get it started  
Adrenaline overload  
If you want it, then we got it  
We won't let up, 'till we get enough  
Adrenaline overload  
If you need it, then we bleed it  
Make some room, here comes the boom!  
Adrenaline overload  
And we won't let it off  
There's nothin' that can stop it  
Until we're in the coffin  
If you want it, we got it  
So let's get it started  
Adrenaline overload
