

# Pretty Lady (Around Me)

Aer

Pretty lady, what's your number?  
won't you tell me where you're going after this?  
I see you struttin' round in your short skirt  
Bet you're headed to the beach by the bayside  
I just want you around me, I just want you around  
Are you a 6-1-7 or 5-0-8?  
got me ridin on I-95 straight to your place,  
it won't be spoken about, it's celebration  
baby what we smokin to now?  
How bout that body, your out of town smile,  
or the fact that I haven't gotten down in a while,  
sall good though,  
I'll get ya screamin in the front row,  
The correct information makes it all happen,  
and me in your bed could make us all happy,  
no downside can't ya see that now?  
yoga mat in your arms well I don't know how  
I didn't notice that before, by the ocean every morning,  
gettin to you know is on my list of importance,  
gotta assist with the scoring,  
got a mission before me,  
just listen up to this recording  
I want somebody to need this body  
You'll learn I'm honest, I keep my promises,  
make you love me not what's in my wallet  
and I'll show you the strongest,  
how the other side of the pond is,  
don't know me, then you don't know modest  
One quick pace and ya face got me brainwashed,  
sun came out and the god damn rain stopped,  
10/10 you gotta aim up,  
burnt brown hair and an Hermes tank top,  
what you wanna do? Ill give you one minute,  
obvious attraction you and me it's physics,  
let me know if you wanna get in it,  
it's something new baby get widdit
