

Gravitas

Asia

Once, you were in my arms feeling so secure
Nothing could go wrong
the sense that I belong, this grand illusion
Now, I come to ask you please
I crawl upon my knees
a serpent on the ground, waiting for the bell to sound
See, where the wrong began
Imagine if you can
My hedonistic world
Grand master of delusion
Now, love has gone to hell
It disappeared from view
Still under your spell
but one thing I demand from you
Gravitas
(just give me dignity)
Gravitas
(retract your claws from me)
Gravitas
(just give me dignity)
Gravitas
So, standing on this ledge
I wonder where you are
Are you still alive or did you die inside just like me?
Go, oh dark angel fly
Off into the night
Leave my tainted soul
Don't look left or right
You will see
Gravitas
(just give me dignity)
Gravitas
(retract your claws from me)
Gravitas
(just give me dignity)
Gravitas
Gravitas
(just give me dignity)
Gravitas
(retract your claws from me)
Gravitas
(just give me dignity)
