

# Everybody

## G Perico

I got a mission, is you down to go get it?  
The homie had a plan, now the homie ain't living  
Ashes to ashes and dust to dust now  
Down to beef with anybody, we don't give a fuck now  
Ho ass niggas tryna finesse and get a hole in your chest  
Represent from the Bronx to back west  
My nigga Shawn Max, straight loc that's a fact  
I ain't even no blood but that shit hurt me bad  
Look at me tryna get rich with everybody I know  
But I probably can't trust nobody I know  
In the streets it's a hazard  
What I'm cut from, they don't make this fabric nigga  
I wish a motherfucker would just leave me alone  
And let me do my shit before his brains get blown  
I put my name on, that's my life on the line  
We gettin' rich this time  
I'm tryna get rich with everybody I know  
Put you up on game, make sure you ain't broke  
Tryna get lit with everybody I know  
Put you to the test, make sure you a loc  
Tryna get rich with everybody I know, know  
Tryna get lit with everybody I know, know  
Make life, take life  
Spend all day and night tryna stay right  
Nigga keep a Glock, and don't hesitate to use it  
Gotta stay alive by any means, do it  
Let's go on the run, stack dough up  
If it don't make money, so what, uh  
Bad business decisions, bad business'll  
Have you sittin' still for a minute  
Wonder why you still ain't got shit  
All that talk shit while niggas out here dodgin' hot shit  
Goin' hard with your back against the wall  
Give a hundred to business, that ain't a hundred at all  
Gotta watch who you with 'cause you never know  
What he really thinking, or how low he might go  
I put my name, my nuts, my life on the line  
I'm gettin' rich this time, G  
I'm tryna get rich with everybody I know  
Put you up on game, make sure you ain't broke  
Tryna get lit with everybody I know  
Put you to the test, make sure you a loc  
Tryna get rich with everybody I know, know

Tryna get lit with everybody I know, know I got a mission, is you down to go get it?
