

All Around the World

Little Richard

All around the world
Rock and roll is on its way
All around the world
Rock and roll is on its way
You can hear those jukebox jumpin'
All night and all through the day They do the Baja
That takes his ha ha
Shim, sham, shimmy
And they never, never stop All around the world
Rock and roll is on its way
You can hear those jukebox jumpin'
All night and all through the day
They never know time for romance
They only wanna dance
People all holla when they hit that floor
Go, cat, go All around the world
Rock and roll is on its way
You can hear those jukebox jumpin'
All night and all through the day They never know time for romance
They only wanna dance
People all holla when they hit that floor
Go, cat, go All around the world
Rock and roll is on its way
You can hear those jukebox jumpin'
All night and all through the day
They never know time for romance
They only wanna dance
People all holla when they hit that floor
Go, cat, go All around the world
Rock and roll is on its way
You can hear those jukebox jumpin'
All night and all through the day
