

# In the Morning (feat. Stephen, Caleborate)

## Pell

In the morning  
When the honour wakes me up  
We can do it all again because it's just the two of us I hit the highway alive, cause we up  
Parting traffic but they ain't slowing me up  
Take my foot off the gas, to ease up  
Got no worries cause we ain't in a rush If dreaming could open doors  
My money a million or  
Tell papa I made that living  
Off slow releases that may be songs  
Grab Lucy for celebrations  
Grab on these to keep me warm  
Grab shawties to come on over  
and tell them to keep off they phone  
Ah  
Let's express ourselves  
Life without a warning  
might not end up well  
But we'll find out  
in the morning  
when the honour wakes me up  
We can do it all again  
because it's just the two of us  
In the morning  
when the sunshine wakes me up  
I don't need to give into bullshit You hit my phone up and ask  
where the booze?  
Put on music and come get lost in the groove  
Grab your t-shirt and dash  
out the room  
It's a party now lookey here what we do  
Take a sip if you feel alive  
Swallow it like it's pride  
Where happy endings got nowhere to be denied  
A hipster all in your feelings  
but Drizzy and Jackson Five  
We don't wanna be where you are Let's express ourselves  
Life without a meaning  
might not end up well  
But we'll find out  
In the morning  
In the morning  
In the morning

When the bullshit wakes me  
Uh nuh nuh nuh nuh nuh nuh  
Ah wait, I went boyband with that  
In the morning  
I skipped calls from Sally Mae  
I know all you haters mad I got to see another day  
A-OK, tell them girls I admire  
I aspire to retire under 30 with a mansion and some ply  
On your knees, I'm laid back cause of all the trees  
Not paying attention to all wannabes, I been me  
And I'm buzzing,  
girl you know you got a little something going on  
and your waist so thorough all the girls say  
These guys tell you lies and you fed up  
I'm the skinny jeans bald head fella  
Dropping songs to the letter  
TBK to you and ain't nothing better  
I promise you I'm so honest I would put Lincoln to shame  
And I love watching cartoons eating cereal  
20-something dreamers reminiscing over middle school  
Got me care free like I ain't got no bills to pay  
I could overlook cause I'm with you in a daze and I'm loving  
The morning  
In the morning  
In the morning  
In the morning  
In the morn-uh
