

Mama (feat. Sting)

GASHI

Oh mama
Oh mama God shine a light on something
Demons trying shoot me down, down, down, down
I keep fighting
My treasure is in heaven, got my soul now Made decisions on emotions
Sabotaged relationships to keep on fighting
Work with what you got and hold on
We all sacrifice for better days Woah mama
Wish I knew then what I know now, know now
Woah mama
Thinking 'bout you as I'm heading down this road now
Wanted all or nothing
See my own flesh tryna bring me down, down
They always overlooked him
And followed all the kings without no crowns They gon' make you lose your mind
Then claim you lost your mind
Time is so little when the dreams big, keep on fighting They gon' make you lose your mind
Then claim you lost your mind
Your new life is costing you your old one Woah mama
Wish I knew then what I know now, know now
Woah mama
Thinking 'bout you as I'm heading down this road now Woah mama
Wish I knew then what I know now, know now
Woah mama
Thinking 'bout you as I'm heading down this road now
A fork a head of me
It's eating me inside
You help me choose what's right Woah mama
Wish I knew then what I know now, know now
Woah mama
Thinking 'bout you as I'm heading down this road now Woah mama
Wish I knew then what I know now, know now
Woah mama
Thinking 'bout you as I'm heading down this road now
