

# One Minute (feat. Kanye West & Travis Barker)

## XXXTENTACION

[Kanye West:]

So much hate at the top, it's a lonely place  
When you find out the opps ain't the only snakes  
And your spouse only know what you don't erase  
The world only know you by your worst mistakes  
So spaz on they ass, that's the only way  
Smash on the gas down, stoney, ayy  
Crash and come back with a swollen face  
And when I'm on my way, X hold the gate  
Terrorize shit, we don't negotiate  
If you bitch-made, we don't associate  
Show up at your birthday if you owe me cake  
With a black mask, that's how we exfoliate  
So pardon my way, my heart's in the way  
I follow my thoughts, ain't no logic in 'Ye  
Said that's all I'ma say, if he caught him a case  
Then send him to jail, like a dog in a cage  
I ain't feeling the age, no rottin' away  
Your dolphins are dazed, you calling away  
'Cause coffins is laid under a tombstone  
'Cause even when you die, they still throwing rocks at your grave  
So follow the wave, can't swallow the hate  
My mind trumps anything that a scholar could say  
Don't know how to behave, we rage out of the raves  
Dislocate an arm, just pop it in place  
'Cause the damned, they ain't it  
All the pain and anguish  
Turned me into a man  
So I ain't complainin'  
Now these things is changin'  
No more lames is hanging  
No more fame in famous  
Ain't no shame in shaming  
She wanna give you the cookie, you Famous Amos  
She gave you the pussy, but you ain't pay for the anus  
Now your name is tainted, by the claims they paintin'  
The defendant is guilty, no one blames the plaintiff  
Gotta say it in Layman's terms, while you wait on arraignments  
'Cause if the jury say you did it, the payment is heinous  
Give me one minute, my lady just fainted

My babies is crying, you understand what I'm sayin'?

[XXXTENTACION:]

One minute, one minute, good  
One minute, and then this one's mine  
One minute, one minute, good  
One minute, and then this one's mine  
One minute, one minute, good

One minute, and then this one's mine  
One minute, one minute, good  
One minute and then this one's—
