

# Carry Me Home (feat. Jake Reese)

[KSHMR](#)

There was a time, you and I  
Get faded together, on the floor  
So high and I stayed there forever You took the high road, I took the bottle  
The little taste of freedom  
But I get the feeling that I'll be needing  
Somebody I can lean on When I'm drunk and out on my own  
You carry me home, carry me home, home  
When I'm down at the end of my road  
You carry me home, carry me home, home, home, home Home, home, home  
When I'm down at the end of my road  
You carry me home  
Carry me home, home, home, home  
There was a time, you and I  
Get faded together, that was then  
But I know, we're still birds of the feather You took the high road, I took the bottle  
I'm never gonna slow down  
But the lights are coming on, playing the final song  
And I just need to know now When I'm drunk and out on my own  
You carry me home, carry me home, home  
When I'm down at the end of my road  
You carry me home, carry me home, home, home, home Home, home, home  
When I'm down at the end where I know  
You carry me home, carry me home, home, home, home  
You carry me home  
Home, home, home  
When I'm down at the end where I know  
You carry me home, carry me home, home, home, home
