

# Paper Tiger

## Spoon

I'll never hold you back  
and I won't force my will  
I will no longer do the devil's wishes  
something I read on a dollar bill  
a paper tiger can't tell you where he stands  
we'll go back tonight the way that we came  
I'm not dumb, just want to hold your hand so alright  
where we want to be  
and alright  
what that we could be  
oh we could go kick ass in bars together  
stay out til morning sharp as knives  
the new war will get you it will not protect you  
but I will be there with you when turn out the light  
said I will be there with you when you turn out the light  
I will be there with you when you turn out the light
