## See It Like a Baby

## **Marillion**

Looking at a star you've never seen before

Try to forget it

So you can see it

Tasted like you've never tasted it before

Try to forget it

So you can remember itYou See It Like A Baby

You See It Like A Baby

You See It Like A Baby

You See It Like A Baby

Love her like you've never fallen in love before

Fall out of love with her

So you can remember

And love him like you've never been with him before

Try and forget it

So you can remember itYou See It Like A Baby

You See It Like A Baby

You See It Like A Baby

You See It Like A Baby You See It Like A Baby

You See It Like A Baby

You See It Like A Baby

You See It Like A BabyOoh ooh ooh ooh

You see it like

You see it like

You See It Like A Baby

You see it like

You feel it like

Feel it like

You touch it like

You touch it like

You touch it like

You touch it like...
