Ooor-oor  
Dir-ty-ty  
That's mree, mreeBidi-bubupThem ah' pree me, I can see angles  
Get money, get snakes by your ankles  
Any cobras can get handled  
Got 'nuff raw soldiers like Dangles  
Bun MC's then bun candles  
Keep it on wax, that's an eediat ting  
Rather thump man and don't talk about it  
That's an inside box for your hand ball  
Penalty! That's a penalty!  
Tour bus look like a Den of Thieves  
Champagne shopping like 10 of each  
Non-stop popping to the cemetery  
They dun know about me!  
War time roll out with pure gun man about me!  
They can't come around East  
Who's that? Get back, draw for the Mac  
You can't ramp wi-di-wi-di-wit-it  
I'm gonna kill him with it  
Might act silly with it  
East End legend like Double O wi-di with it  
Don't dally, don't dilly with it  
No man, I stick Lillies with it  
Grown man on some kiddy business  
I do rapper and BAFTA shit  
Like Bushkin, can't take away my classics kid  
If it's war I'ma take it to the mattresses  
Where were you back then?  
Where were you back then?  
Man was putting in work on the roof back then  
With a few mandem  
Swear no word of a lie I'm the truth right now  
I were the truth back then  
Man better call Rooney for some proof right now  
Before we do fact checks (Ooor-oor)Bada-bup bup  
Man can't try school me on this  
Man can't try school me on that  
Been there, did this and I done  
Man been there, did this and I done that  
Man run up in houses, run up in flats  
Slapped up dogs and slapped up cats

In beef man come with this and that  
Man can't try school me about this  
Man can't try school me on that  
Been there, did this and I done  
Man been there, did this and I done that  
Man run up in houses, run up in flats  
Slapped up dogs and slapped up cats  
In beef man come with this and that  
No love, man are moving  
Bada-bup bup Them think man are bad til man start checking credentials  
Wreck instrumentals  
They know bout the pen game  
But man are still leading with pencils  
They ain't been to the mountain once  
Shaolin monk when I step in his temple  
Tag team, man see legends assemble  
Backseat youngers step out with men's tools  
Ryu's and Ken's  
Why you with them?  
Rude boy, mind where you tread  
That's thin ice  
I see my yute through the lens  
That's fish-eye  
Believe no truth in your rep  
And still I  
Reload, do it again  
And then deny  
Mutual friends wanna ask  
Why did I?  
What!? Why did I?  
Repercussions  
Steven, I even suttin'  
5 nights, 1 wap that's - even numbers  
Hooded up, man's still a reaper coming  
See, I'm way too gifted  
Kill an MC with bare different flows  
I can kill an MC with  
Presence alone  
Level and tone  
Timeless and definite flow  
And try nuff a take a man's throne  
Make a man know  
My man's tekkers is cold  
Impeccable form  
Jason levels was born  
In East London where weapons get drawn  
Big beef there??? Meat cleavers and several swords  
Tea leafs, felons and frauds  
CVs read and get torn

These demons could level with Spawn Oor-oor  
Bada-bup bup  
Man can't try school me on this  
Man can't try school me on that  
Coz I been there, did this and I done  
Man been there, did this and I done that  
Man run up in houses, run up in flats  
Slapped up dogs and slapped up cats  
In beef man come with this and that  
Man can't try school on this  
Man can't try school me about that  
Coz' I been there, did this and I done Yeah, been there, did this and I done that Man run up in  
houses, run up in flats  
Slapped up dogs and slapped up cats  
In beef man come with this and that  
No laugh, man are moving  
Bada-bup bup Trying to stay out of harms way but the trouble keeps on miscallin'  
Can't wrap me up when I'm home alone  
Man ain't been calling me, no Culkin  
Live by, then die by, plus pussioles are informers  
That's why all the soldiers keep fallin'  
Oh my gaardd  
Oorr Oorr
