Prelude

Bonobo

Hands up I got my eyes facing down I'll show you where my tears come down Slowly down Hands up I got my eyes facing down I shudder when my tears come down So slow down So slow down Suddenly my tears come down Slowly down Slowly down So slowly down Hands up I got my eyes facing down I'll show you where my tears come down Slowly down Hands up I got my eyes facing down I shudder when my tears come down So slowly down So slow down
