Atmosphere

Joy Division

Walk in silence Don't walk away, in silence. See the danger Always danger Endless talking Life rebuilding Don't walk away. Walk in silence Don't turn away, in silence. Your confusion My illusion Worn like a mask of self-hate Confronts and then dies. Don't walk away. People like you find it easy Naked to see Walking on air. Hunting by the rivers Through the streets Every corner abandoned too soon Set down with due care. Don't walk away in silence Don't walk away.
