

# Wherever I Go (feat. Ruth Moody)

Mark Knopfler

Maybe I'm bound to wander  
From one place to the next  
Heaven knows why  
But in the wild blue yonder  
Your star is fixed in my sky  
Just another bar at a crossroads  
So far from home  
But that's alright  
Whenever I'm going down a dark road  
I don't feel alone in the night  
There's a place in my heart  
Though we're far apart  
May you always know  
No matter how long since I saw you  
I'll keep a flame there for you  
Wherever I go  
They're looking to close up in here  
They're pulling down the blinds  
But they'll let you stay awhile  
They're not going to mind  
Now I've got to leave you, brother  
So this round's mine  
Here's looking at you, anyhow  
You can go on and have another  
They won't call time  
I'm going to say my goodbyes now  
There's a place in my heart  
Though we're far apart  
May you always know  
No matter how long since I saw you  
I'll keep a flame there for you  
Wherever I go
