

Jealous (feat. Chris Brown, Lil Wayne & Big Sean)

DJ Khaled

Tay Keith (Tay Keith)
Jealous, jealous
We The Best Music Oh, oh, oh
They don't want us together, 'gether
Another one
You need somebody, babe, you need somebody, babe
DJ Khaled I pick you up in my ride
Make sure you waitin' outside when I pull up
I told my niggas I can't slide (No, no, ha)
Just to be right by your side
I could've been anywhere, but I'm right here
I want you all to myself
I grab your hips and I
Tell you you're the one for me (Yup!)
Tell you I got all you need
'Cause I want your body (Yo' body)
Yeah, yeah
All over my body (Body)
And I know that they hatin'
They say I'm no good
But I know that they watchin' (No, no)
Girl, I can tell that you need some love in your life
And I'm the one, don't let no one change your mind
Fuck what they say Girl, they just jealous, jealous, jealous
Don't want us together, 'gether, 'gether
Girl, they just jealous, jealous, jealous
Don't want us together, 'gether, 'gether
Girl, they just jealous, jealous, jealous
Don't want us together, 'gether, 'gether (Woo!)
Girl, they just jealous, jealous, jealous
Don't want us together, 'gether, 'gether
You mad or you jealous, you sad or you settle
The brighter the rainbow, the badder the weather
The good with the bad, but the badder the better
Bring my sand to the beach, nigga, and to the desert
We fell from the heavens, we landed like feathers
The rose in the rubble, keep your nose out our petals
Your hoes know my schedule, and my hoes know I'm special
They know not to question, bitch, you know I'm not Alexa
She, she post a pic of me and her from her iPad

You know them hoes don't like that but her likes at
Jealousy is a disease, you could die mad
Tunechi, Sean, CB, Khaled, hi there But girl, I can tell you need some love in your life (Ooh
yeah)
And I'm the one, don't let no one change your mind (Oh, na, na, na)
Fuck what they say Girl, they just jealous, jealous, jealous (Jealous)
Don't want us together, 'gether, 'gether
Girl, they just jealous, jealous, jealous (Oh, oh, woah)
Don't want us together, 'gether, 'gether (Oh, oh, girl, they just)

Girl, they just jealous, jealous, jealous (Jealous)
Don't want us together, 'gether, 'gether (Together) Dawg it's these jealous ass hoes I can't relate
to
The type to follow you but hardly follow through
You say I'm on your mind
I'm wondering why I'm not on you
Girl, you fresh out the shower
Towel around your head like you Erykah Badu
It's lookin' like a spa day
I rearrange your chakras listenin' to Sade
Let's take a road trip and get high on the highway
My great spend time, lay back and watch the sky change (Woah)
And I hear the jealousy but look, I never listen
The quickest way to let something die is lack of attention
And you got it all
You looking good is my intention
'Cause we on the same shit, straight up But girl, I can tell you need some love in your life (Ooh
yeah)
And I'm the one, don't let no one change your mind (Oh, na, na, na)
Fuck what they say Girl, they just jealous, jealous, jealous (Jealous)
Don't want us together, 'gether, 'gether
Girl, they just jealous, jealous, jealous (Oh, oh, woah)
Don't want us together, 'gether, 'gether (Oh, oh, girl, they just)
Girl, they just jealous, jealous, jealous (Oh woah)
Don't want us together, 'gether, 'gether (Oh woah)
Girl, they just jealous, jealous, jealous (Jealous)
Don't want us together, 'gether, 'gether (Together) These niggas really scared I'ma take they
chick
Must be the money, 'cause the young boy rich
You could drop a dime, but I make it make sense
Girl, you coming home with me
You the last number on my call list
Pull up on me, girl, let's get lit
I think I hit a lick
I think I hit a lick Girl, I can tell that you need some love in your life (You need, yeah)
And I'm the one, don't let no one change your mind (Oh, oh, oh, oh)
