

# Love Come Save Me

## Mat. McHugh & The Seperatista Soundsystem

what would you say if we had never wasted,  
all of the time it took to be ok?  
what would you say if we had never wasted us?  
somedays they burn into a gold horizon,  
others they fade into the course of time.  
another day, another memory crumbles to dust.  
throw me a lifeline now I'm starting to drown.  
pull me a ripcord, soon I'm hitting the ground.  
tell me,  
is my time coming or a long time running  
singing,  
love come save me now?  
there's music blowing in the Kona winds  
it's singing,  
up in the clouds before the rain begins,  
it's bringing me back my soul,  
gave my heart to the sea.  
just like the tide we all could come and go,  
we could be everything we ever hoped,  
so maybe,  
all I could hope is one day you will remember me.  
throw me a lifeline now I'm starting to drown.  
pull me a ripcord, soon I'm hitting the ground.  
tell me,  
is my time coming or a long time running  
singing,  
love come save me now?  
love,  
come save me now.
