I Know You Know (feat. Cymphonique)

Big Time Rush

Oh woah

Oh woah Maybe this could be the line

That starts the whole storyMaybe you could be the one

The one who's meant for me

I know that I should wait

But what if you're my soulmate? Slow down

Then you say

Slow down

'Cause we canWe can

Party like the weekend

You got me thinking

We could be a thing yeah

I know you know I got

Your heart thumping

I know you know we know

We got somethingWe could

Be on to something so good

Tell me that you're mine

I know you know

You got my heart thumping I know you know we know

We got something

You know this ain't me at all

I'm usually lost for words You know I can't help but fall

I've never felt so sure

You got me in a hurry

But don't you gotta worry

'Cause I'll slow down

When you say slow down

But we can

We canParty like the weekend

You got me thinking

We could be a thing yeah

I know you know I gotYour heart thumping

I know you know we know

We got something

We couldBe on to something so good

Tell me that you're mine

I know you know

You got my heart thumping I know you know we know

We got something
