Waiting Around For Grace

Pond

Don't you think I want it too Baby, when I look at you You'll miss the golden moment when Everything alignedDid it go on underground Without a soul around? Don't that make you wonder How God found the time? We're always waiting around for grace To put a smile upon her race Well, I'm sure she's got a pretty face than in the world Well, it's a real big place, your hands on mine You know it happens, honey, all the time Well, my hands going wild Well it wouldn't be wrong even if I tried Tired of these goodbyes Tired of all these weeping eyes Tired of being tired of the process of being tired Of you being tired of me I'm tired, tired

Tired (tired, tired, tired), tiredWe're always waiting around for grace

To put a smile upon her race

Well, I'm sure she's got a pretty face in the worldWell, it's a real big place, your hands on mine,

you know

We're always waiting around for grace

To put a smile upon her race

Well, I'm sure she's got a pretty face in the world

In the world

In the world

In the world

We're always waiting around for grace, oh
