

# Dance Like We're Making Love

Ciara

Sweat dripping from my body, we both at this party,  
So come and show me your moves, I got some things I can teach you too  
If you wanna see, oh oh  
You say you need a shot of the Henne  
Then you're ready  
Do what you need to do  
Cause I'll be waiting for you  
It's about to get hot and heavy, oh oh It's really late  
You're getting closer and the lights off  
Your body is in sync to the beat of my heart  
And I can feel your nature rising wild and wild on you  
Let's dance like we're making love  
Making love  
Let's dance like we're making love  
Making love  
Let's dance like we're making love If you're down just maybe  
We dance like we're making babies  
As soon as our song comes on  
Cause boy we got all night long  
So if you're ready  
I'm ready to get it  
Come on  
I see a little faded  
You gonna get crazy out on this floor  
I hope you're sure this is what you want  
Cause once I'm turned, you can't turn me off  
It's really late  
You're getting closer and the lights off  
Your body is in sync to the beat of my heart  
And I can feel your nature rising wild and wild on you Let's dance like we're making love  
Making love  
Let's dance like we're making love  
Making love  
Let's dance like we're making love Off the wall  
Body to body  
You and I  
And then out through the night baby  
Closer than before  
Dance like no one's watching  
You and I tonight  
Be the time of your life baby Oh oh Let's dance like we're making love  
Making love

Let's dance like we're making love  
Making love  
Let's dance like we're making love
