

# Everything You Love

## Chimaira

Can't sleep with all this frustration  
Intoxication  
I no longer have regret  
So what if I caused hysteria?  
It's not my dilemma  
I'm only here to inflict pain I will never forgive the ones  
Who pushed me away  
Like a tumor  
Rage grows inside me  
Reminding me every day  
I will retaliate  
A thorn in my side for years  
The man who sheds no tears  
I am here to expose you  
All of the poison that you take  
All people you violate  
Your faith can't save you now I will never forgive the ones  
Who pushed me away  
Like a tumor  
Rage grows inside me  
Reminding me everyday  
I will retaliate  
I am your family  
With the power  
To end everything  
Everything you love  
You love  
You should be  
You should be paranoid  
I guess I no longer share this vision  
I guess I have a new agenda  
While you sink down into your hole  
I am proud to watch you lose control I will never forgive the ones  
Who pushed me away  
Like a tumor  
Rage grows inside me  
Reminding me every day I will never forgive the ones  
Who pushed me away  
Like a tumor  
Rage grows inside me  
Reminding me every day I will retaliate  
I am your family

With the power  
To end everything  
Everything you want  
Everything you feel  
Everything you need  
Everything you love  
You love  
You love  
You love
