

# Boy from School

## Hot Chip

And I was a boy from school  
Helplessly helping all the rules  
And there was a boy at school  
Hopelessly wrestling all his fools  
And there was a girl at school  
Blaming all the words she learned from home  
Nothing could keep her a child  
Long hours don't you know we try  
We try but we didn't have long  
We try but we don't belong  
We try but we didn't have long  
We try but we don't belong  
Now I met you on the street  
Heartlessly breaking rules we meet  
Lives are found and lives are lost  
Say goodbye to nothing everything cost  
Now i find you on the street  
Breaking rules hopelessly we meet  
Loves are found and loves are lost  
Say goodbye to everything, nothing cost.  
We try but we didn't have long  
We try but we don't belong  
We try but we didn't have long  
We try but we don't belong  
I got I got I got lost  
You said this was the way back  
I got I got I got lost  
You said this was the way back  
I got I got I got lost  
you said this was the way back  
We try but we didn't have long  
We try but we don't belong  
We try but we didn't have long  
We try but we don't belong
