

Work your body, work those hips
Work your body, work those hips
Go work
Go work
Go work
Go work

I know yall not over that acting lot, you tired?
You thought you was working hard
No, youre not working yet
Now its really time to work
Are you ready?

Work your body, work those hips
Work your body, work those hips
Work your body, work those hips
Work your body, work those hips
Go work
Go work
Go work
Go work

Lets go, lets work
Lets go, lets work
Lets go, lets work
Lets go, lets work
Lets go, lets work
Lets go, lets work
