

3rd Planet

Modest Mouse

Everything that keeps me together is falling apart
I've got this thing that I consider my only art
Of fucking people over My boss just quit the job
Says he's goin' out to find blind spots
And he'll do it The 3rd planet is sure that they're being watched
By an eye in the sky that can't be stopped
When you get to the promised land
You're gonna shake that eye's hand Your heart felt good
It was dripping pitch and made of wood
And your hands and knees
Felt cold and wet on the grass to me
Well, outside, naked, shivering, looking blue
From the cold sunlight that's reflected off the moon
Baby cum angels fly around you
Reminding you we used to be three and not just two And that's how the world began
And that's how the world will end Well a third had just been made
And we were swimming in the water
Didn't know then
Was it a son, was it a daughter? When it occurred to me
That the animals are swimming
Around in the water
In the oceans in our bodies And another had been found
Another ocean on the planet
Given that our blood is just like the Atlantic
And how
The universe is shaped exactly like the earth
If you go straight long enough you'll end up where you were
The universe is shaped exactly like the earth
If you go straight long enough you'll end up where you were The universe is shaped exactly like
the earth Your heart felt good
It was dripping pitch and made of wood
And your hands and knees
Felt cold and wet on the grass to me Well, outside naked, shivering, looking blue
From the cold sunlight that's reflected off the moon
Baby cum angels fly around you
Reminding you we used to be three and not just two And that's how the world began
And that's how the world will end Well a third had just been made
And we were swimming in the water
Didn't know then
Was it a son, was it a daughter? When it occurred to me
That the animals are swimming
Around in the water

In the oceans in our bodies
And another had been found
Another ocean on the planet
Given that our blood is just like the Atlantic
And how
The universe is shaped exactly like the earth
If you go straight long enough you'll end up where you were
The universe is shaped exactly like the earth
If you go straight long enough you'll end up where you were
The universe is shaped exactly like the earth
Everything that keeps me together is falling apart
I've got this thing that I consider my only art
Of fucking people over
