

# Completely Not Me

Jenny Lewis

I could've died that night  
Way back in june  
Saw my soul hang heavy above the room  
Slackjawed I confessed, bit by my hubris  
I was spooked out obsessed by the moon I was completely not me  
But baby I'm coming clean The doctor said to you  
"Son theres nothing you can do  
Just leave her here and wait until the day"  
I was shivering in bed, eyes rolled back in my head  
I was begging for you to go away  
I was completely not me  
Baby I'm coming clean  
Completely not me  
Baby I'm coming clean I was completely not me  
But baby I'm coming clean  
Completely not me  
Baby I'm coming clean  
I died that night  
Way back in june  
When my spirit hung heavy above the room I was completely not me
